## BIO

Hard working and committed and extremely good at communicating with teammates and staff, on and off the pitch. My passion and enthusiasm and willingness to learn more about the game everyday is one of my greatest assets and this rubs off on all those around me. I have a degree in sports coaching which I have applied throughout my career to myself and others. My biggest strength is I will never give up and refuse to be beaten which is why I think your squad will benefit from me being in the team.
